DEPARTMENT : **COMPUTER ENGINEERING DEPARTMENT**
AY AND SEM : ____ Sem, AY 2026–2027
SUBJECT : **Elec 3 – Technical Elective III (Software Development)**
NAME : _____
DATE : _____

Task/Activity: "From Code to Cloud"
Develop a full-stack application using Git and GitHub, then deploy it online. Submit the following:

1. **Full-stack application** with a frontend and a backend.
2. **Database** connected to the application, with working create, read, update and delete (CRUD) operations.
3. **GitHub repository** containing the complete project source code.
4. **Commit history** that shows the development process from the early stages (not uploaded all at once).
5. At least **one branch** created and **merged** into main.
6. Application **deployed** and accessible through a **live URL**.
7. **README** with a project description, tech stack, and deployment steps.

RUBRICS _ Final Project

CRITERIA	4 – EXCELLENT	3 – GOOD	2 – ADEQUATE	1 – NEEDS IMPROVEMENT	SCORE	REASON FOR SCORE
Mastery (25%)	**25** — Clear understanding of the development workflow; stack, database and hosting choices are correct and justified in the README.	**19** — Good understanding; choices are correct, with minor flaws or brief justification.	**13** — Basic understanding; choices work but have significant flaws or no justification.	**6** — Limited understanding; choices are incorrect or unexplained.		
Functionality & Deployment (25%)	**25** — Live URL works; frontend, backend and database all work online; deployed version matches the repository.	**19** — Live URL works; main features work online, with minor errors.	**13** — Live URL works, but major features or the database connection are broken online.	**6** — Live URL does not work, or the application runs only on localhost.		
Development Workflow (20%)	**20** — Commits spread from early development to deployment with clear messages; branch created and merged into main correctly.	**15** — Regular commits with mostly clear messages; branch merged with minor issues.	**10** — Few commits, mostly near the deadline, or vague messages; branch not merged.	**5** — Project uploaded in one or two commits; no branches.		
Composition of Requirements (15%)	**15** — All 7 requirements present.	**11** — 5–6 requirements present.	**8** — 3–4 requirements present.	**4** — 2 or fewer requirements present.		
Design & Presentation (10%)	**10** — Consistent layout; all navigation works; readable on desktop and phone.	**8** — Consistent layout; minor navigation or display issues.	**5** — Inconsistent layout, or several broken links or pages.	**3** — Disorganized layout; hard to use.		
Timeliness (5%)	**5** — Submitted before the deadline.	**4** — Submitted on the deadline.	**3** — Submitted up to 1 day late.	**1** — Submitted more than 1 day late.		
				TOTAL SCORE (out of 100)
